

SOFT EDGE 70

DESIGN BY ISKOS-BERLIN

Made possible by exploring innovative developments in moulded plywood techniques, Iskos-Berlin's Soft Edge series blends strong curves with extreme lightness to create a three-dimensionality that is not normally possible with 2D plywood. All the edges of the ultra-thin, soft-formed seats are bent away from the body, designed to optimise human-centric comfort for constant shifting and movement. This shorter stool variant features straight steel legs that enhance the minimalistic aesthetics and create a feeling of lightness. Its strength and functionality ensure years of everyday use in a wide range of public and private environments – from corporate spaces and cafés to home environments.
